## USA

Once a year, the most elite beer milers across the world gather to compete in the world's premier running and drinking event: **The Beer Mile World Classic**. Celebrating its 9th year as the 2023 official beer mile world championship will be staged in the USA for the first time since its inception. *Ed: Any hashers taking part please let us know how you do!*

The New York City H3 2000th r\*n was a 3-day celebration that got great reviews. There was a nautical-theme festival of events held Wednesday through Sunday, from June 14th – June 18th. The main event took place on Saturday, June 17 with a pick of trails followed by a private, hashers-only beer cruise

around New York Harbour.

## A Great story from Japan

Christopher Lewis, June 6, 2023

Hi Shakes,

I much enjoyed the "If I had a time machine - 30 Hashes I would like to travel back to!" item in your April/May issue.

Since I only joined the Tokyo Hash in 1980, I can't shed any light on a contretemps in a bar between TH3 and the yakuza "around 1979", but I can tell you about another, probably more dramatic incident that happened a few years later.

On a fine Monday evening in one of Tokyo's most upscale residential areas (and right outside the go-to supermarket for the expat community) one of the FRBs made the mistake of banging on the bodywork of a Cadillac that had blatantly jumped a set of red traffic lights. (No self-respecting yakuza would be seen driving anything else at the time: that particular car had, as we subsequently discovered, apparently been confiscated from a doctor who had presumably been a little late repaying his debts). Three heavies jumped out of the car, only to be outnumbered as the slower members of the pack arrived in force. At this point any thoughts of confrontation on the part of our intrepid heroes were abandoned as one of the yakuza reached back into the car and brandished a samurai sword! The incident unfortunately did not end well, as the heavies targeted one of our smaller Japanese members, threw him to the floor and put the boot in big time. Not funny - he had to pay a visit to the local A&E, as I recall.

There was an interesting postscript to the story which doubtless sheds light on the relationship between the yakuza and the police: not only were the local cops extremely slow in reacting at the time of the assault, but afterwards Tokyo's finest did everything they could to dissuade both the victim of the attack and other Hash members from pressing charges or pushing for an investigation. Only in Japan.....

On! On!

## Labour winning back swathes of Brexit voters, data reveals

◆ 'Key word' figures show Tory collapse  
◆ Johnson coalition 'is falling apart'

By Michael Savage

Labour is making dramatic progress in winning back pro-Brexit voters across the country as the confidence of support for the Tories falls by Boris Johnson's collapse, according to detailed analysis of Thursday's local election results.

Figures from the BBC's 'key word' data, obtained by the Observer, show

support for the Conservative party was up by seven points compared with 2019, in the most pro-Brexit wards.

The data also shows that while the Tories were down 2.5 points in the most pro-Brexit wards, they were up 1.3 points in the most pro-EU wards.

Senior Labour figures and leading academics said the data showed that the Tories were losing their Brexit and voting for the Tories is waning.

Stephen Fisher, professor of political sociology at Oxford University, who was also on the BBC's panel, said that the election results showed that the Conservative party's Brexit promise had become hollow, particularly since 2019.

In Thursday's poll Labour gained 23 seats and took control of another 23 councils as it became the largest party in local government for the first time since 2015.

In a world for the British people, the Tories have more than 100 seats - including a figure that says every prime minister since 1945 had, at least one week in, in effect, a 'winning' vote.

The Liberal Democrats have won 12 seats.

A profile we missed:

Nip-L-Peenk

I was coopted into hash by Geestring with the words “you like to drink?” It was 1988 and Capital’s run 293.

My first big away run was 1991 Nash Hash in Dunedin (South Island) after numerous local weekends in training.

Hared our 1000th run. Memorable for holding the first PS in a freezing wind in shorts and tee at the top of a hill, then Chapman PS in old gun emplacements while the rain poured down.

Joint GM for our 2000th run in March 2020, which was 2 weeks away from going ahead, but sadly interrupted by the government imposed lockdowns. The event was finally held after I left Wellington.

Erected GM too often to recall. Carved many a hasher’s 100 run vessel. “Ran” well over 2000 total Hash runs with Capital (c. 1100 ish), local hashes and around the world.

Loved every minute.

*An announcement dated 2023–May-15*

The following changes have been made to the leadership of the IH24 organising committee.

a. Following a IH24 committee meeting, BlueVain has resigned as Chairman.

b. BlueVain has also relinquished his committee positions as “Food Manager” and “Goodie Bag Manager” and will not be active on committee henceforth.

These changes have been made to address the matters raised within the notice of motion proposed at the NZ Nash Hash 2023 GM’s meeting and then published as a “Letter of No Confidence”, issued to the World Interhash Council and immediately viewed by many hashers across the world.

The following should be also recorded as a response to matters noted in the No Confidence post regarding financial transparency and accountability.

a) All funds are now secured with “2 out of 3” signatory requirement, two of the three being current IH24 committee members.

b) Reconciliation of all accounts (including Red Dress and Exclusive Red Dress events, and managed accommodation bookings) is well underway.

c) The current IH24 committee is progressing the establishment of an Incorporated Society.

Going forward:

- Subject to NZGM acceptance and endorsement of the above points 1 and 2 it is the IH24

More great research from Hazukashii

Greetings Hashers, After reaching out far and wide, and receiving several responses . . . I would like to announce the OLDEST ACTIVE HASHER, worldwide. Hashing with the Sydney H3 (Posh Hash) for many years, Bill *Hanoi* Bill Newling is proclaimed as the world’s oldest active hasher. He was born on 4 May 1929 is now 94 and still kicking it. Honorable Mention goes to 90 year old Ron *Runnit* Hollick who still actively hashes with the Taunton H3, DOB 20 Feb 1933 . . . He has hashed in Muscat, Oman and other far flung places as he was an aircraft engineer in his youth.

“current” committee intention to issue (through the NZGM) a welcome to any hasher in NZ who is now prepared to rejoin the organising committee, or to join as a “new face”.

- It remains IH24 committee firm commitment to managing and delivering a successful World Interhash event in Queenstown in March 2024.

*And from the Interhash Council:*

The Interhash Council fully supports the NZ GMs in their vote of no confidence. We have been in continual contact with Bluevain since November, trying to persuade him to allow his committee members authority to carry out their roles. We obviously want this Interhash to be a success and we still stand ready to provide support to the rest of the Interhash NZ Committee, if they gain control and are willing to involve the Interhash Council,

## Stink Finger

As was already reported a few weeks back we lost a great hasher, Stink Finger. Stinky hashed for 34 years and never stopped, and holds the record for the most hashes run in 4 of Portland's biggest kennels (I think I heard 690 hashes just in one kennel). If there's an afterlife, I'm sure he's found a new kennel.

Yesterday we had his memorial hash in Portland, OR with a great turnout. Hashers from as far away as the US East Coast and Alaska came. I heard so many great stories, both trail successes & failures, that even after knowing him for 7 years, I still found out quite a bit about him.

He will be missed. On up Stinky.

## Bug Fucker and Ball Tickler

Long time Hashers from Texoma H3, *Bug Fucker* and *Ball Tickler* were killed in a bicycle accident. Our prayers go out to their daughter and families.

*Mighty Mouth* Charles Winget McBride also known as *Charlie Mac* was tragically killed in a cycling accident, alongside his wife Lisa Kathleen McBride, on June 1st, 2023 at the age of 63. After graduating from Rider High School in 1979 Charles pursued a degree in geology at Oklahoma University and graduated with a Bachelor Of Science at Midwestern State University. Charlie met Lisa Kathleen Brown in 1999 while they were both attending a race for The Wichita Falls running Club also known as the Hash House Harriers. It was love at first race and they married on September 19, 2003 in Lake Tahoe, Nevada. Charlie accomplished many marathons and triathlons all over the country including the IronMan. He qualified for the Boston marathon but unfortunately was forced out due to injury. But, one that certainly cannot go without mention is his longest adventure recorded, cycling across the country from Mexico all the way up to Canada.

## Uncle Mite

*Uncle Mite* was a member of Stockholm's Mite family and a well loved fringe member of the hash. Not really a runner, his contribution included some excellent home made wines and a sharp sense of humour.

## Colour Of The Eggs

It is with a heavy heart that to say farewell my Hash friend Barry Jones *Colour Of The Eggs* Jones. Barry died peacefully but too early after a short illness. He dedicated his life to his three sons William, Jones and Martin. His passion was aviation technology, where he worked all his life and travelled to many countries with and without his Hash. His direct and friendly manner and his ever cheerful laughter made him known and popular he will be missed in all my hash travels!

## The GM handover

Cor *Blimey* Schouten had co-founded **Brussels Manneke Piss Hash House Harriers** but was now moving on to Finland and would hand over the GM ship to Mike *Terd* O' Connor

Cor's son, *Magic Poofa*, would also be leaving to study in the States. Both father and son, incidentally, were Dutch not Belgium.

The change over hash took place on the 1st August 1992. Hashers woke that morning to the promise of great weather and rumours of a beer stop. The venue was the house of *Aussie* and *Hot Dick*. This was in Vossekoten and had the advantage of a large garden.

The trail started off through a cool wood and, as promised, did indeed have a drink stop. The second half was across more open terrain and very hot.

Cor ran the first part of the circle and then handed over to *Terd*. *He had even rehearsed a speech, 'which of course he fucked up.'*

Cor finished on the ice which was actually welcomed on such a hot day.

# First 5 China Nash Hashes 2001, 2003, 2004, 2005 and 2006

*The classic years!*

## 1st China Nash Hash Beijing 18th-19th May 2002

The idea of a Nash Hash as part of the **Beijing H3** 1000th celebrations was raised over Qingdao Beers and Margaritas at the Mexican Wave. *ED: The first ex-pat bar to open in Beijing and owned by Mad Greg of the Beijing H3.*

*Ratcatcher* contacted John Roomboy Malins in Chengdu and Doug White Trash Barretts in Shanghai. They passed the news on to the smaller hashes scattered around China at the time.

www.hashchina.com was established to promote the event.

The date was set for May 18th -19th 2002 as May offered a good chance of better weather.

Therefore, from March onwards Beijing runs were numbered 999A 999B etc. so that the 1000th could be pushed to the May date.

The 1000th run took place on May 18th while the next day the run was labelled as Nash Hash/ Beijing 1009th. Order was thereby returned to the Universe.

*Ratchucker, Room Boy* and *White Trash* met and selected Shanghai as the obvious venue for the next event. At some point this took the title Pan China

# Rule 3 - No Poofers

For many years any act of affection in the circle was likely to bring  
a cry of '*Rule 3 No Poofers*'

While not politically correct, this was never an expression of anti-gay  
sentiments but an homage to a famous Monty Python sketch.

The Bruces sketch originally appeared in a 1970 episode of Monty Python's Flying Circus. It was later performed on audio recordings and live on many occasions by the Monty Python team.

Eric Idle co-wrote the sketch with Cleese and said he based it on his Australian friends from the 1960s "who always seemed to be called Bruce".

The sketch involves four stereotypical Australians, all wearing khakis and cork hats. All are named Bruce.

The skit begins with three Bruces sitting at a table, as someone sings *Waltzing Matilda* in the background. The boss Bruce arrives with a new staff member, a "pommie" named Michael Baldwin (played by Terry Jones).

The group are identified as the Philosophy Department of the University of Woolloomooloo. The department appears to be situated in nothing more than a simple wooden building somewhere near Uluru/Ayers Rock (which is visible in the distance behind them).

Because Baldwin's first name is different from that of everyone else, he is asked if he minds being called "Bruce" to avoid confusion.

The Bruces all have a common fondness for lager beer and a dislike of "poofers" (a derogatory Australian and English slang word for a homosexual).

John Cleese's recites the seven faculty rules at the University of Woolloomooloo:

No poofers.

No member of the faculty is to maltreat the "Abos" in any way whatsoever—if there's anyone watching.

No poofers.

I don't want to catch anyone not drinking in their

room after lights out.

No poofers.

There is no rule six.

No poofers.

## Versions

The sketch appeared on the *Matching Tie and Handkerchief* album and in many of the team's stage shows, where it would be followed by a performance of "Bruces' Philosophers Song". Free cans of Fosters beer were tossed to the audience.

On On Bruce!

**Second Bruce:** G'day, Bruce!

**First Bruce:** Oh, Hello Bruce!

**Third Bruce:** How are you Bruce?

**First Bruce:** A bit crook, Bruce.

**Second Bruce:** Where's Bruce?

**First Bruce:** He's not 'ere, Bruce.

**Third Bruce:** Blimey, it's hot in here, Bruce.

**First Bruce:** Hot enough to boil a monkey's bum!

**Second Bruce:** That's a strange expression, Bruce.

**First Bruce:** Well Bruce, I heard the Prime Minister use it. 'It's hot enough to boil a monkey's bum in here, your Majesty,' he said and she smiled quietly to herself.

**Third Bruce:** She's a good Sheila Bruce, and not at all stuck up.

**Second Bruce:** Here! Here's the boss-fellow now! - how are you Bruce?

*(Enter fourth Bruce with Michael)*

**Fourth Bruce:** 'Ow are you, Bruce?

**First Bruce:** G'day Bruce!

**Fourth Bruce:** Bruce.

**Second Bruce:** Hello Bruce.

**Fourth Bruce:** Bruce.

**Third Bruce:** How are you, Bruce?

**Fourth Bruce:** G'day Bruce.

**Fourth Bruce:** Gentleman, I'd like to introduce man from Pommeyland who is joinin' us this year in the philosophy department at the University of Walamaloo.

**All four:** G'day!

**Michael:** Hello.

**Fourth Bruce:** Michael Baldwin, Bruce. Michael Baldwin, Bruce. Michael Baldwin, Bruce.

**First Bruce:** Is your name not Bruce?

**Michael:** No, it's Michael.

**Second Bruce:** That's going to cause a little confusion.

**Third Bruce:** Mind if we call you 'Bruce' to keep it clear?

**Fourth Bruce:** Gentlemen, I think we better start the faculty meeting. Before we start, though, I'd like to ask the padre for a prayer.

**First Bruce:** Oh Lord, we beseech Thee, Amen!!

**All four:** Amen!

**Fourth Bruce:** Crack tubes! (Sound of cans opening)  
Now I call upon Bruce to officially welcome Mr. Baldwin to the philosophy faculty.

**Second Bruce:** I'd like to welcome the pommey bastard to God's own Earth, and remind him that we don't like stuck-up sticky-beaks here.

**All four:** Hear, hear! Well spoken, Bruce!

**Fourth Bruce:** Bruce here teaches classical philosophy, Bruce there teaches Haegelian philosophy, and Bruce here teaches logical positivism, and is also in charge of the sheep dip.

**Third Bruce:** What's New-Bruce going to teach?

**Fourth Bruce:** New-Bruce will be teaching political science, Machiavelli, Bentham, Locke, Hobbes, Sutcliffe, Bradman, Lindwall, Miller, Hassett, and Benet.

**Second Bruce:** Those are all cricketers!

**Fourth Bruce:** Aww, spit!

*(Hails of derisive laughter)*

**Third Bruce:** Bruce!

**All four:** Australia, Australia, Australia, Australia, we love you amen!

**Fourth Bruce:** Another tube! *(Sound of cans opening)*  
Any questions?

**Second Bruce:** New-Bruce, are you a Poofta?

**Fourth Bruce:** Are you a Poofta?

**Michael:** No!

**Fourth Bruce:** No. Right, I just want to remind you of the faculty rules: Rule One!

**All four:** No Pooftas!

**Fourth Bruce:** Rule Two, no member of the faculty is to maltreat the Abbos in any way at all -- if there's anybody watching..... Rule Three?

**All four:** No Pooftas!!

**Fourth Bruce:** Rule Four, now this term, I don't want to catch anybody not drinking..... Rule Five,

**All four:** No Pooftas!

**Fourth Bruce:** Rule Six, there is NO ... Rule Six!... Rule

Seven,

**All four:** No Pooftas!!

**Fourth Bruce:** Right, that concludes the readin' of the rules, Bruce.

**First Bruce:** This here's the wattle, the emblem of our land. You can stick it in a bottle, you can hold it in your hand.

**All four:** Amen!

**First Bruce:** Right, let's get some Sheilas.

*(An Aborigine comes in with a tray full of enormous steaks.)*

**Fourth Bruce:** OK.

**Second Bruce:** Ah, elevenses.

**Third Bruce:** This should tide us over 'til lunchtime.

**Second Bruce:** Reckon so, Bruce.

*(All four Bruces launch into the Philosopher's song)*

Immanuel Kant was a real piss-ant who was very rarely stable.

Heidegggar, Heidegggar was a boozy beggar who could think you under the table.

David Hume could out-consume Wilhelm Freidrich Hegel.

And Whittgenstein was a beery swine who was just as sloshed as Schlegel.

There's nothing Nieizsche couldn't teach 'ya 'bout the raising of the wrist.

Socrates, himself, was permanently pissed.  
John Stewart Mill, of his own free will, after half a pint of shanty was particularly ill.

Plato, they say, could stick it away, half a crate of whiskey every day!

Aristotle, Aristotle was a bugger for the bottle,  
And Hobbes was fond of his Dram.

And Rene Descartes was a drunken fart: 'I drink, therefore I am.'

Yes, Socrates himself is particularly missed;  
A lovely little thinker, but a bugger when he's pissed.

# Hash and the BBC

## Beer Run

Described as a “drinking club with a running problem”, thousands of Hash House Harriers take to the open road each week for some serious exercise and some even more serious refreshment.

### Join Inside Out as we work up a thirst.

“Hashing” as it has come to be known happens regularly up and down the country as eager runners and/or drinkers combine an invigorating run with more than the odd pint, before, after and even during the jog.

Never one to pass up a challenge, or a drink, Inside Out’s guest presenter Linda Robson pulls on her trainers and heads to the Rockbourne pub near Fordingbridge.

### Working Up a thirst

The idea was born in 1938 when a group of expatriates in Kuala Lumpur instigated a modified hare and hound paper chase. The chase was designed to work up a thirst, or work off a hangover, before retiring to the Selangor Club where drinking would recommence.

The club was known locally as the “Hash House” so the name was adopted by the harriers and it stuck.

Today, hashing is an international pastime occurring in over 184 countries worldwide. It is a non-competitive form of running with varying trails designed to suit differing fitness levels.

The run invariably starts and ends in the pub.

### On the trail

As a new hash harrier, Linda is forced to put her spritzer and packet of dry-roasted on hold prior to

the race as she is given the job of the hare.

The hare has the important task of laying a trail made of all manner of things including flour, toilet paper, powdered chalk or paper.

Linda and *Rattlebones* - nicknames are essential for harriers - lay the main trail, whilst *Tall Paul* lays a decoy trail to trick runners into long detours.

“Once we’ve laid the trail we just sit back and watch all the other silly idiots run around like blue-bot-tomed flies!”

Trails can either be “live”, with the hare setting out 15 minutes before the pack, or “dead”, in which the trail is laid in advance. Linda’s is a dead trail which means she has the option of getting a round in and sitting it out in the pub.

But not one to languish in comfort whilst other slog it out, Linda heads out on the hash. But it’s no easy task - as Linda soon discovers when she has a run-in with an electric fence!

And it looks like her discomfort hasn’t gone unnoticed, as *Tall Paul* briefs tonight’s runners.

“It’s a very short run tonight - it had to be short because Linda moaned all the way around!”

“There’s a lot of barbed wire and there’s also one very good electric fence, and it is on, isn’t it Linda?”

Fortunately for Linda (and the cameraman!) the

run is four and a half miles - which is apparently shorter than the hash house harriers are used to!

### Liquid Refreshment

Hashing is as much about enjoyment and socialising as it is about keeping fit, so don't be expecting a swift-half before home on the run's completion.

To ensure drinking is taken as seriously as the running, a forfeit system known as "Downs downs", insists that a pint must be guzzled in one for any misdemeanours occurring on the run.

And as for Linda's spritzer

She'll be swapping to pints for the time being.

Hashing is a great way to combine exercise and socialising and if your legs aren't aching the day after the run, you can guarantee your head will be!

# Tiger *The* Original Hash Beer

1932

Tiger Beer is launched as the first beer brewed in Singapore. There are considerable problems to overcome. There are no local barley or hops, the temperature makes brewing difficult and there is a lack of ice!

1937

The famous tiger badge is adopted by 230 squadron (See box next page).

1939

Tiger wins its first international beer medal.

1939

Tiger becomes the official hash beer. It was probably late 1939 or 1940 before beer was provided at the run site, and then it was Tiger 'a headache in every quart' mixed with ginger beer to form a shandy. On A to B runs the Malay drivers would be sent off to the finish point with supplies of cold beer and the result was that the hashers started to stay much longer at the 'on in'. Making a shandy required the purchase of enamel mugs.

1940 -41

As troops move into the region Tiger became popular with Commonwealth servicemen.

1945

With ingredients difficult to find a watery Tiger Club brand is introduced.

1954

Tiger takes a Commonwealth Gold Medal in the bottled beer competition.

1956

Anthony Burgess (A Clockwork Orange) publishes his first novel. Set in Malaysia during the emergency it is called **Time for a Tiger** (1956)

1965

Tiger appears in cans for the first time.

1973

There are the first TV ads.

2010

Tiger finally becomes an official Interhash beer at Kuching.

A hash legend..... from Brunei

Around 1974 John Chalmers fell on a run and returned to the circle with thorns in his flesh. Brunei thorn trees are not like English rose thorns, they are big and nasty like spears! The wounds wouldn't heal and Chalmers eventually needed to go to UK. On his return he missed his connection in Dubai – according to the hash legend ***because the airport bar stocked Tiger Beer***. The plane he missed (presumably flight G-ASGR) was hijacked and flown to Libya!

Tiger beer appears in:  
The Transporter with Jason  
Statham.

Tropic Thunder  
The Accidental Spy with Jackie  
Chan

The Odd Angry Shot  
The Virgin Soldiers.

## Used on an RAF Badge

No. 230 Squadron was a flying boat squadron that served in the Indian Ocean and the Mediterranean during the Second World War.

It was formed at Pembroke Dock on 1 December 1934 and the following year received its first aircraft, the biplane Short Singapore III,

By mid 1938 the squadron was **based in Singapore** where it started converting to the more modern Short Sunderland. It was fully equipped by the start of the Second World War. The squadron was initially used to provide patrols over the Indian Ocean and the approaches to Malaya and Singapore.

In October a detachment was posted to Ceylon, and by February 1940 the entire squadron was based there. The remaining Singapore-based personnel transferred to No. 205 Squadron.

In May 1940, with Italy about to enter the war, the squadron was moved to the Mediterranean where it flew reconnaissance sorties for the Mediterranean fleet and anti-submarine patrols. The squadron was based in Egypt, but from June began to use Kalafrana, Malta, as an advanced operating base.

The squadron was disbanded at Pembroke Dock in 1946.

# Interhash The Survivors

**The Survivors** are those who have attended every Interhash. An early Hash publication, *Half a Mind*, listed 24 hashers who had attended every event between 1978 and 1986. (See next page). Although this list is interesting it is far from comprehensive as *Whorator* was missing.

By the mid-nineties '*Hares and Hounds*' listed only 5 survivors. These were *Philthy*, *Chee Bye*, *The Wolf*, *Whorator* and *The Penguin*. In fact Ron *The Penguin* Strachan had registered for every Interhash, but had missed Phuket because of a death in the family. This list omitted *Drainoil*. It is also possible that Ross *Opera Singer* and John Pollock (both Australians) might have been 'survivors' at this point.

By Goa in 2002 the number of survivors was down to a confirmed 5, these being:

· Frank *Whorator* Benfield (Australian) · Phil *Philthy* Chapman (Australian)

Allan *Chee Bye Chee* (Malaysian) Wolfgang *The Wolf* Gust (German)

Bob *Drainoil* Leonard (English).

*Whorator* was the next to drop out, failing to arrive in Goa even though he had registered as an Early Bird. He also opted out of Cardiff due to a severe case of Interhash burnout but returned to the Interhash fold in Chiang Mai 2006.

Just before Interhash 2010 *The Wolf* died of a heart attack while on the Frankfurt H3 trail, reducing the Survivors to 3:

Phil *Philthy* Chapman (Australian);

Allan *Chee Bye* Chee (Malaysian);

Bob *Drainoil* Leonard (English).

The death of *Chee Bye* left *Philthy* and *Drainoil* as the last hashers to have attended every Interhash. Their duel ended in a tie as both missed Goa in 2022.

*The Penguin* attended Goa, meaning he now equalled *Drainoil* and *Philthy* as the only hashers to have attended 21 out of the 22 Interhashes. There seems every possibility that he will attend Queenstown. If *Drainoil* and *Philthy* are absent again, *The Penguin* will become the hasher who has attended the most Interhashes.

## A to Z

## Letter P

**Pour, Bob**

**Kuwait H3**

His biggest contribution to hashing was designing the iconic **Kuwait H3** badge.

**Precious**

**Ron Fuller**

**Hamersley H3 (Australia)**

Forty years and 800 runs with Hamersley.

**Pretty Young Thongs**

**Gasing Hill/PJ Animales (Malaysia)**

Joined **Gasing Hill H3** in 2007 at the age of 18 and has reached 600 runs with them. In 2018 he join the **PJ Animales H3** and currently runs with both chapters. He was named *THONGS* with **Launcheston H3** where he was studying in 2008, this for wearing thongs after the run during winter. Later in 2018 , he was renamed *Pretty Young Thongs* by the **PJ Animales**.

**Prince Valiant, Sir**

**Graeme Buntine**

**Gold Coast (Australia)**

Was on the very first **Gold Coast** hash and has clocked up nearly 1800 hashes since then placing him second on the Gold Coast run list. An engineer by trade, he avoided the committee for several years until becoming On-Sec in 1983. Having recovered from that experience he became GM in 1988. He has been a notable hash traveller, including 7 Interhashes since the 'Thriller in Manila'. At various time his mother, sister, wife and sons have all hashed. Was named after his first car, a Chrysler Valiant which apparently he still drives!

**Prickhairarse**

**Simon Parker**

**Whangarei H3 (New Zealand)**

Godfather of the hash with 10 years as a GM and a record 1660 hashes. Daughter *Boobies* is now a keen hasher with the group.

**Prince Variant**

**Robert Woods**

**Boston H3 (USA)**

Robert Woods has a long hash CV, including spells in Korea and Washington. He was founder of Boston and Madison kennels.

**Prof**

**Gordon Williams**

**Bicester H3 (England)**

Gordon *Prof* Williams was a distinguished scribe with **Bicester H3**, his publication being selected as trash of year in 1994, 1995 and 1996. He is even more famous for the ten years he spent as UK On-Sec his spell in charge being noted for an almost non-hash level of organization. Many thanks Prof!

**Prior, Hilary**

**Ladies of Hong Kong**

Hilary Prior happened to be in the Cricket Club on a night that the men's hash was there. Thinking it all looked jolly good fun, she organized a ladies run that attracted somewhere between five and seven girls.

**Proposition**

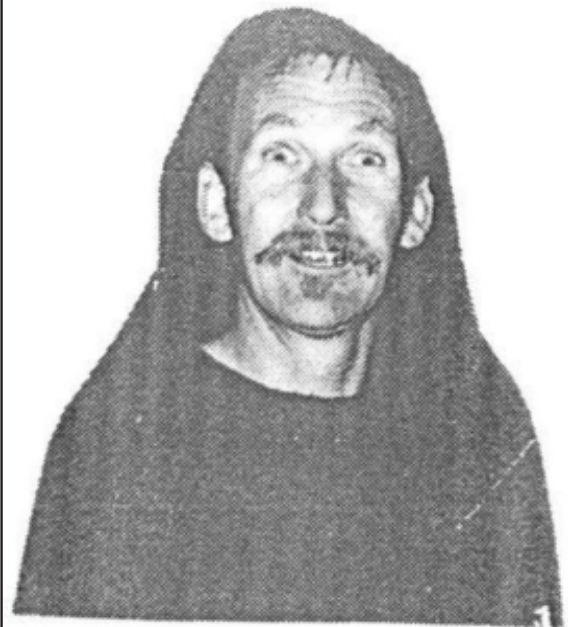

*See under alternative hash name of Wild Wolf*

**Prosser, Judy**

**Jakarta Hash Scene (Indonesia)**

In 1973-4 Judy joined the Jakarta men on a run from JIS. She continued to turn out regularly despite all their abusive and chauvinistic behaviour. Judy's presence on the Jakarta men's hash led to her being awarded the title Hash Pussy, a Hash

**Prince Valiant**

name she wore with pride. Subsequently, Carol Cooney, Jackie Cooney and Jackie Higgins all attended and refused to leave the Jakarta Hash. *Ed: Is it possible that but for the forming of the Harriettes this brave bunch of pioneers might have turned Jakarta into a mixed hash?*

#### **Puha**

**Kris Persson**

#### **Wellington H3**

Kris *Puha* Persson was an expat from Sweden who became a regular runner with **Wellington H3**. He was murdered, along with his partner and fellow Hasher, Vanessa Johnson, while mountaineering in Bolivia in August 2005.

*On on Puha.*

#### **Pumpkin**

**Peter Benuare**

#### **Hamersley H3 (Australasia)**

Has completed 30 years and 500 hashes with Ham-

ersley. Famously became *Wanker of the Week* for starting the car of a fellow hasher who had left the keys in the ignition. He didn't notice it was in gear and very nearly run himself over.

#### **Pump Me**

**Rita Wakim**

#### **Beirut H3 (Lebanon)**

*Pump Me* is an extremely fit and attractive Harriette who has been a central figure in Lebanese hashing for a number of years. When the Beirut hash split she was one of the few to run with both kennels, helping to lay the foundation for the eventual re-union of the two chapters.

#### **Pumps 'er Hard**

#### **Kabul H3 (Afghanistan)**

*Pumps 'er Hard* is one of a dozen Afghan regulars to have achieved a 100 Runs with **Kabul H3**. He took over the GM position in 2009.

**Purdie, Bill**

### **Bahrain H3**

Bill Purdie acted as hash cash and then became the **Bahrain** GM from 1980-82. He continued to hash until leaving Bahrain in 1984. Described in the Bahrain newsletter as *'one of the oldest of the old timers realised how far past his peak he was when he failed to reach the starting line for the marathon'*. Years later his daughter, Robyn *Throbbing Good* Purdie joined the Kuwait Hash unaware that she was from a distinguished hash family.

### **Pussy Whipped**

#### **James Millichip**

### **Brunei H4 and others**

*Pussy Whipped* started hashing in August 1981 with **Riyadh H3** and ran with them until April 1984. Returning to the UK, he was forced onto a Hash sabbatical due to the lack of a local kennel. In December 1987 James returned to Saudi Arabia, running with **Yanbu H3** until January 1989. A second break was followed by a move to Brunei in 1992, where he became Hash Horn and Hare Raiser with **KBH4** and GM and Hash Piss of the men's **KBH3**. He was also involved in the organizing of the first Brunei Nash Hash and ran with several other chapters. In 2004 *Pussy Whipped* co-founded **Durian City H3** in Davao City, Philippines and hashed there until April 2005 when he moved to Egypt and joined **Cairo H3**. He was last heard of hashing regularly with **Sakhalin H3** in the Russian Far East.

### **Pussy Licker**

#### **Philippines Hash Scene**

Loved hashing particularly in the Philippines which he would return to whenever there was a hash opportunity. While in Kuwait, he went out for a pizza after his birthday party and managed to hit a police car escorting the Sultan. Now retired to England.

### **Queen of England, The Phil Davies**

#### **Doha Night-Crawlers (Qatar)**

Discovered hashing during his tours of work in the Far East (Japan/Taiwan/Hong Kong) before ending up in The Middle East. He was on the Mis-Management of the **Desert Hash** in Dubai (with whom

he was arrested for running in a red dress during Ramadan). Moved on to Doha where he co-founded the **Doha Nightcrawlers** with *Baldrick 2 Dogs*. Named *The Queen of England* because he is Welsh. On leaving the Nightcrawlers he was presented with a hash T-shirt saying *"The Queen is Dead, Long Live The King"* ..... only for everyone to discover that the actual Queen of England had died while they were out on the run. Owned by *Sweaty Yeti*.

### **Quick Drawers**

#### **Rich Coats**

### **Okinawa H3 (Japan) and others**

*Quick Drawers* has been hashing since 1977, starting with **China H3** in Taipei. With the US military moving away from Taiwan he transferred to Okinawa where he opened a hash at his air base. This group faded out after 40-50 runs but hashing on the island would continue from the marine base. In 1978 he attended the first official Interhash in Hong Kong. After Okinawa he spent 5 years helping to establish hashing in Panama before heading back to the States. Here he joined **Mount Vernon H3**, quickly becoming a member of the committee. One of his many claims to fame was being one of the last three hashers to have been present at every Americas Interhash. (He finally opted out of the 2019 hash cruise) He is also one of only three known hashers to have hashed in every US state. He estimates a life time total of around 2300 hashes.

### **Queenie**

**TNT (Scotland)**

A lifelong sportsman with a degree in Scottish history. At 40 he decided to try marathons and while jogging was 'kidnapped' by TNT, who were on their 13th but first official hash. Kept travelling the world to run half marathons and usually combined these trips with joining the local hash.

and smokin' and jokin' - and just then it hit me  
Someone turned around and shouted

*join the scrivin' bastards fast boy*  
*join the scrivin' bastards yeah*  
*join the scrivin' bastards fast boy,*  
*you ain't no athlete so walk and talk and smoke and*  
*drink and scive*

I couldn't understand them  
I thought they must be out of their minds  
Just ramblin' through the country  
You know the bastards weren't even trying.

So I kept on runnin'  
I was tiring every step of the way  
'Till I said I must go back there

To see the SCBs at play  
And they were laughin' etc  
At first it wasn't easy  
Changing all my best friend's minds

They thought it was degrading  
Walking along behind.

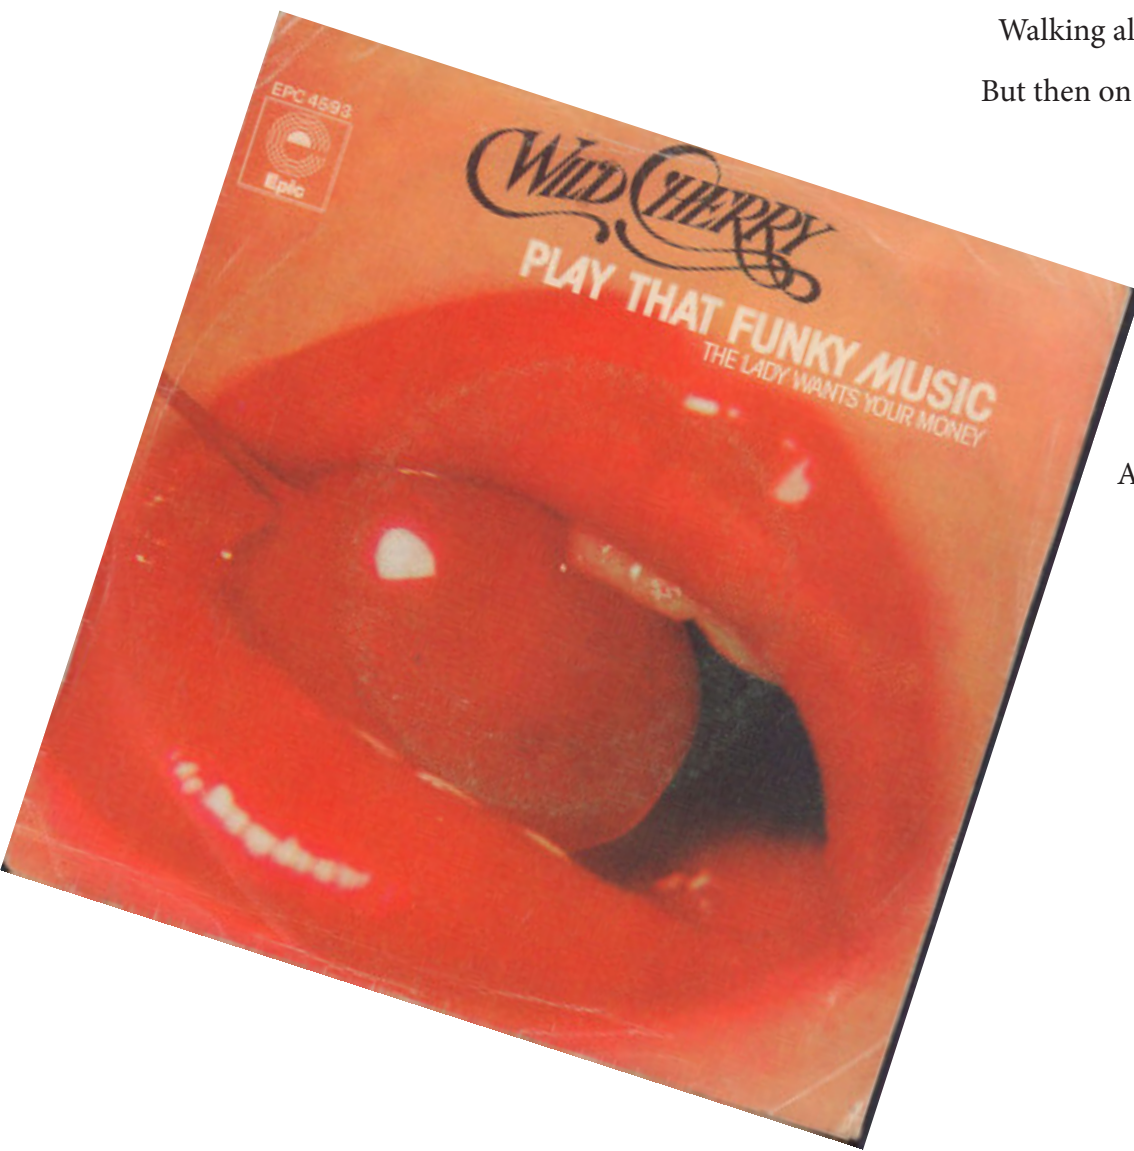

But then on one occasion

It must have been in  
February

They were feeling all  
hung-over

So they ran at the back  
with me

And they were laughin' etc

# *And then he fucked me*

(Then He Kissed Me)

Well he walked right up to me and asked if I wanted a screw  
I said I am a virgin but I just might fancy you  
He put his hand upon my bra  
I said boy now you have gone too far  
But as we lay in the back of his car  
He went and fucked me

My momma told me don't ever mess with no guys  
'cos a prick is a stick that's dynamite in disguise  
But then he taught me the golden rule  
I never learned in Sunday school  
But all I knew is it felt so cool  
When he fucked me

He touched me in a way that I've never been touched before  
He touched me in a way I wanted to be touched for evermore  
For the next few weeks it was all On On and On In  
and before I knew it he and I were livin' in sin  
But then I found the stupid prick  
Had gone and got me up the stick  
I asked him to pay me twenty quid a week  
And then he chucked me  
Having fucked me  
He went and chucked me

## *S.C.B. Blues*

(12 Bar in D)

Oh I woke up Sunday morning - feeling like death warmed up  
I am like a Dolly Parton tit stuffed inside a 32c cup  
and when I go out hashing, I know I have to take a short cut  
Well the hash horn blows - there's me struggling on behind  
I'm so damn tired - I can't even read the signs  
I've got to get back quick - taking the shortest short cut I can find  
Oh Mr Landlord, hey  
Open up the back door  
Oh Mr Landlord, hey  
Open up the back door

Cos I am a short cutting bastard - just a fucking lazy so and so

Well I am back at the pub and I really haven't run so far

I am pretty shagged out, but I'll make it was far as the bar

and when the pack gets back I am well into my second jar

Oh Mr Landlord, hey

Open up the back door

Oh Mr. landlord hey

Open up the back door

## *The beers all gone*

(Da Doo Ron Ron)

I looked for the sawdust and it caught my eye

I called On On, I called On On

He looked kinda handsome as he passed by

I called On On, I called On On

Yeah, as he passed by

Splashed the shiggy in my eye

But when I saw his steaming thighs

I called On On On, I called On On

Later at the On On when he caught my eye

He called On On, he called On On

He said come on now and don't be shy

He called On On On, he called On On

Yeah, he was quite a guy

Yeah, oh my oh my

Shagged until I thought I'd die

We came On On On, we came On On

We came back to the on on, I heard him cry  
the beers all gone, gone the beers all gone

Yeah, I thought I'd die

Yeah, oh my oh my

The bums had drunk the barrels dry  
the beers all gone gone, the beers all gone

So when you meet a hasher and he wants to try  
to call On On On to call On On

Don't be in such a hurry on the bed to lie

to call On On, to call On On

Even though you want to fly

stay and drink the barrel dry

Then you go and shag the guy

You call On On On, you call On On

## Seletar h3

### The first year

Where do I begin, to tell the story of how great a love can be ... The sweet love story that is older than the sea. The simple truth about what the club brings to me ... Where do I start ?

Originating in 1938 ( The Hash House Harriers, Selangor aka **Mother Hash** ) and disrupted only during the World War 2, hashing arrived in Singapore in 1962 ( Hash House Harriers Singapore aka Father Hash ). **Father Hash** ran on Mondays and grew in membership. Singaporeans after getting a taste of Hashing in Malaysia etc., applied to join HHHS Monday Hash, but Monday Hash had closed its membership and were not admitting new members. Another version, or so I heard, was that as more Chinamen and Mamas joined, some became disgruntled by being bossed around by 'too many Kwailohs '.

Anyway, in either case, due to the increased popularity of hashing in Singapore, it was felt that there was room for another chapter to be formed,

to run on a different day.

And so it began, one fine day in the spring of 1980, James *Winnie the Pooh* Sando, John *Brewer* Chew, Martin *Salami Mabok* Baptist, Ang *Smoothie* Chuan Seng, Avtar *Avgas* Singh and Paul *Deep Shit* Ang, were entertaining the GM of **P.J. Animals**, Alex *The Bear*, at the now closed Tivoli Coffee House. Somehow the conversation turned to the subject of forming another club (THE BEAR made this suggestion). There were mixed feelings at first, but by the time the evening ended, everyone was in general agreement.

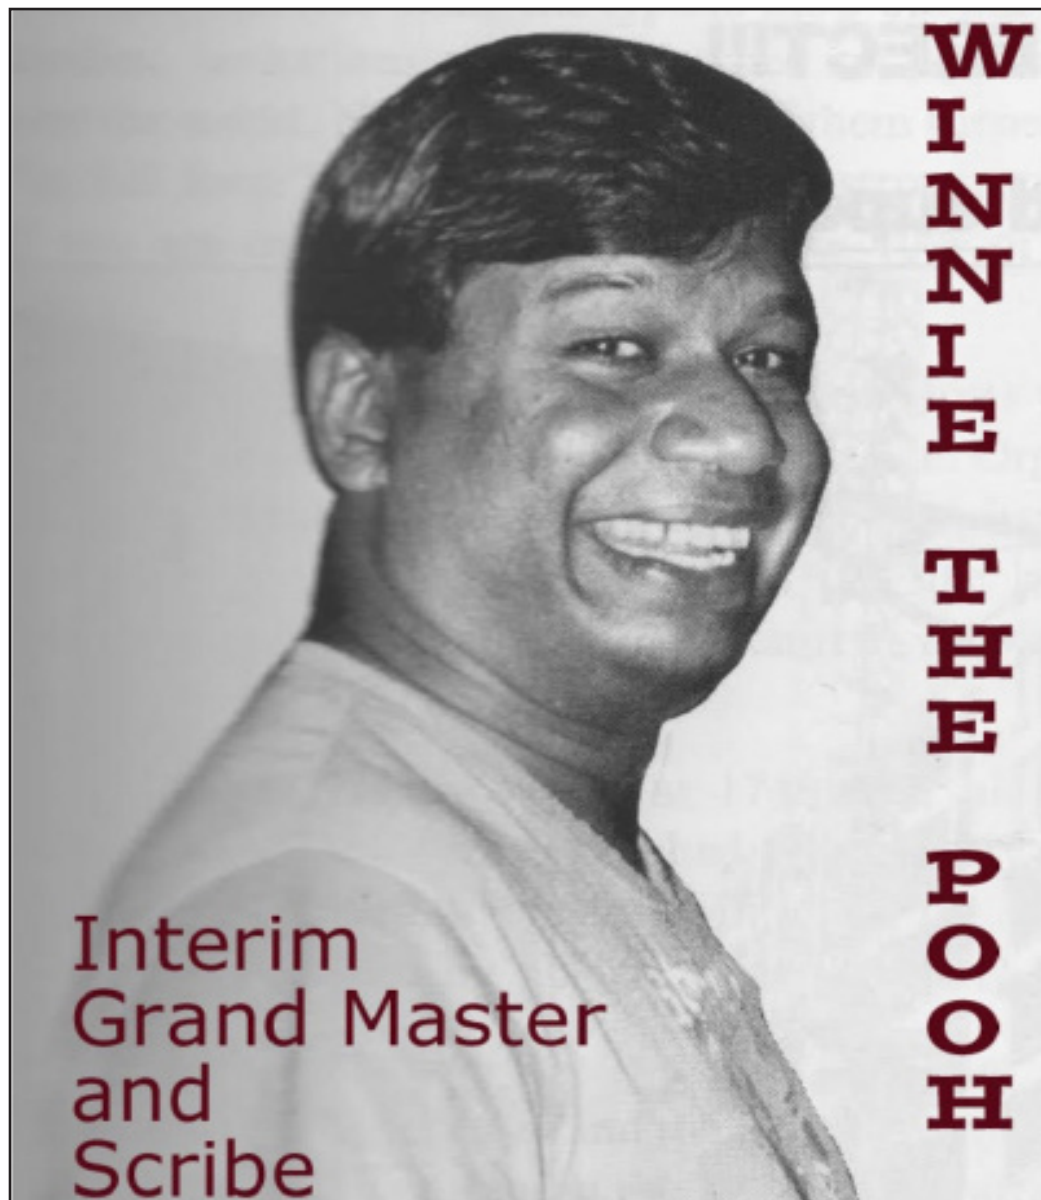

Following that historic Tivoli meeting, things began to move fast. A Chapman meeting was convened in BREWER's Joo Chiat home, to form the interim committee and to decide on the club's name. The name Seletar was chosen as most of the founders worked in the Seletar neighbourhood.

A Pro Tem committee met on 26 May 1980 in Kingsford Bar (now also closed) to plan the details of an inaugural run. The run would be held on 21 June 1980, with Petaling Jaya, Sungei Ujong and Johor Bahru hashes invited as guests.

On the 21st June 1980 at approximately 1 pm, six hares set off to lay the run from their chosen run-site, Marsiling School. This was the largest number of hares in the history of Seletar as nothing was to be left to chance on our inaugural run.

### The Inaugural Run

There were approximately 40 participants including 5 from **Sungai Ujong** and 3 from **PJ Animals**. The fun and games continued late into the night and carried on to Tivoli until 11.30 am, the next day.

Note that Seletar's first run on 21 June 1980 was a Saturday ! This was corrected from the 2nd run, held on Tuesday 1 July 1980 at Portsdown. Around 25 participated in this run hared by Paul *Polly Wooly* Ang and Avtar *Avgas* Singh.

The novice club was able to trash out a brief hareline (8 July run Seletar Camp, 15 July Choa Chu Kang Cemetery ). With around 20 runners usually turning up in the early days progress was steady. A committee was elected for the first time and our constitution passed.

### The role of our Hash Brother Chapters

PJ Animals and Sungei Ujong were of great sig-

nificance as PJ's GM Alex *The Bear* was instrumental in getting the ball rolling and Seletar's constitution was based on Ujong's. James Sandosham sat as the Grand Master, later given the hash name ...." *Winnie the Pooh*. Finally, a year after SHHH was formed, we got our club logo.

Abtar Singh won the " Down Down " contest during the October 1982 Interhash in Jakarta, Indonesia ... hence he was given the name *Champ* we became " The World Champ Guzzlers " and our newsletter later called THE SELETAR GUZZLER. Every year, **Seletar H3** and the **PJ Animales** and the **Sungei Ujong Hash House Harriers** join together for a Triangular Run, taking turns to host this fun filled event.

Interhash activities are so fun, that since 1987, SELETAR HHH joined Lion City, Johor Bahru and Tanjong Petri HHH for a Quadripartite Hash Rendezvous (QUAD RUN).

Our first AGM was held 4 April 1981 at Paradise Restaurant in Pasir Panjang.

# Letters

This is my first look and it's totally rubbish, but hey, that is the hash.

Interesting to see what's been happening around the hashing world.

Great job, Keep it up, I'll try to spread the word.

HHHi Shakes,

First off, glad to see that your operation went well, with the pics of you posted on Facebook proving that nothing much can keep a good hasher down.

In the March issue, I'm glad you featured some of the photos of Pirelli - a true gentleman and hash legend.

I also enjoyed your critique of "Runners World" magazine attempting to describe hashing. I think it's safe to say "they got it mostly right. Except for the bits that were mostly wrong".

The heyday of hashing in Hong Kong was also an eye opener. It is hard to appreciate how things that had "always been" suddenly disappeared (former work colleagues who had been in the Army in the 1980s recounted tales of the married quarters blocks that were also in those heyday times)

And now to finish the rest of the magazine - the Pan-Africa hash in Malawi even had a couple of the Elgin hashers attending, as the country has special memories for them.

The Brazil Nash Hash looks to have been a small but perfectly formed event - a reminder that not everything has to be the mega-event, just because some people expect it. The trials and tribulations of the Intermesh 2024 in the letters you published is an indication that organising events, once they get above a certain size, goes from "a keen team can do it" to "a dedicated team must work hard to do it".

I like the understated comment in the writeup of 1500 hashes for Sir Dip Stick. "The best part is that no one died on trail".

The time travelling hasher piece reminds me that there are several parallels between hashers and science fiction fans. But that's a tale for another day!

Thanks again for another great issue.
