Notes:

1. The Yangon Hash does not have a website (Myanmar is internetually challenged). While we will accept pre-registrations at the above e-mail address, we kindly ask you to refrain from asking lots of very pertinent questions until we can get our shit together and post information where you will be able to access it.
2. Neither do we have a bank account (Myanmar has a cash economy) nor is it possible for us to accept credit cards. Therefore we are not yet able to take registration fees - which is just as well, because we haven't yet decided how much to charge you - but it definitely will not be any more than in Chiang Mai.
3. Early registration will help us gauge the level of demand while we try to work out a way of taking your money off you and will guarantee you a great Hash at the cheapest possible price!
