World Hash Events

December 2026

Greetings Hashers,

Another year is rapidly coming to a close, and soon we will all be focused on those year-end holidays. Good news though, there are still 25 more hash events scheduled through the end of the year. So, plenty of time to get some good old exercise in, so we are swimsuit ready for our next day at the beach. Get some!!

HASH HISTORY:

This is a copy (and reproduction) of the oldest known hash trash / announcement, dated Aug 1941.

100TH V RUN!

THE HASH HOUSE HARRIERS
-----oOo-----

JOINT MASTERS:- M.C.HAY,
R.BENNETT.

The ONE HUNDREDTH MEET will be held about 200 yards beyond the BUNGSAR POWER STATION, on FRIDAY, 15TH AUGUST 1941, at the usual times.
Start at Car B.1963.

HARES: - E.A.ROSS,
M.C.HAY.

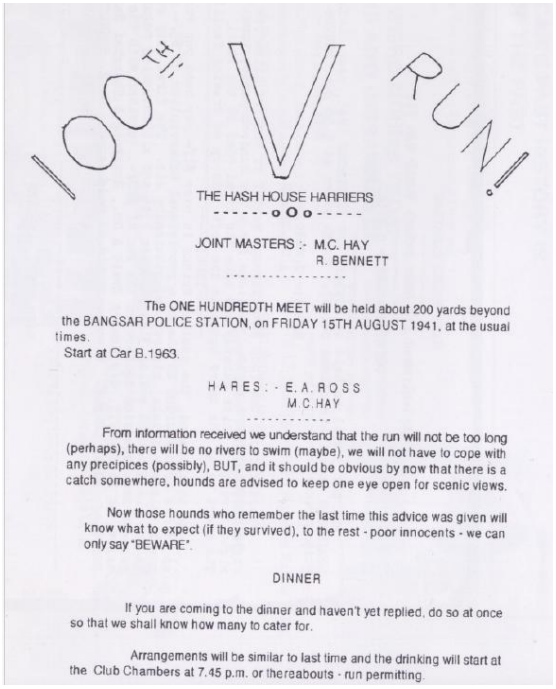

From information received we understand that the run will not be too long (perhaps), there will be no rivers to swim (maybe), we will not have to cope with any precipices (possibly), but, and it should be obvious by now that there is a catch somewhere, hounds are advised to keep one eye open for scenic views.

Now those hounds who remember the last time this advice was given will know what to expect, (if they survived), to the rest - poor innocents - we can only say "BEWARE".

DINNER

If you are coming to the dinner and haven't yet replied, do so at once so that we shall know how many to cater for.

Arrangements will be similar to last time and the drinking will start at the Club Chambers at 7.45 p.m. or thereabouts - run permitting.

As you should already know, the original Hash House Harriers club suspended activity on 12 Dec 1941 during World War 2. During the war, we know that G was killed in defense of Singapore, but many of the other original members spent years in POW camps. As they were released and regained their health, they returned to Kuala Lumpur to restart their lives. Finally, in Aug 1946, Torch Bennett would submit a war claim for the missing mugs and other items of hash materials, and get a small settlement to start hashing again. The oldest known hash trash from the new start was for run #3 on 2 Sep 1946.

Some say this was a restart of the original HHH. In my opinion, it was the start of the second hash club. Trails were generally A to A, before the war they were A to B. They ran on a new day (Monday), before the war trails were on Friday evenings. They started from run #1, although they would eventually recover the original 117 runs, and add them on after run #1000 in March 1966. Picking up at run 1118 the following week. Either way, Torch Bennett deserves great credit for ensuring we are still hashing today.
